

Cisco ISE Upgrade:

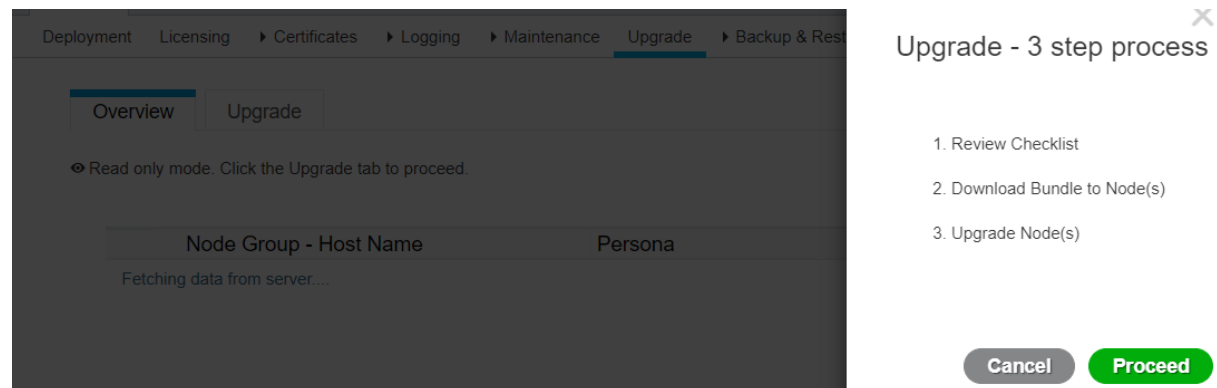

Choose **Administration > System > Upgrade > Overview** menu option lists all the nodes in your deployment, the personas that are enabled on them, the version of ISE installed, and the status indicates whether a node is active or inactive. You can begin upgrade only if the nodes are in the Active state.

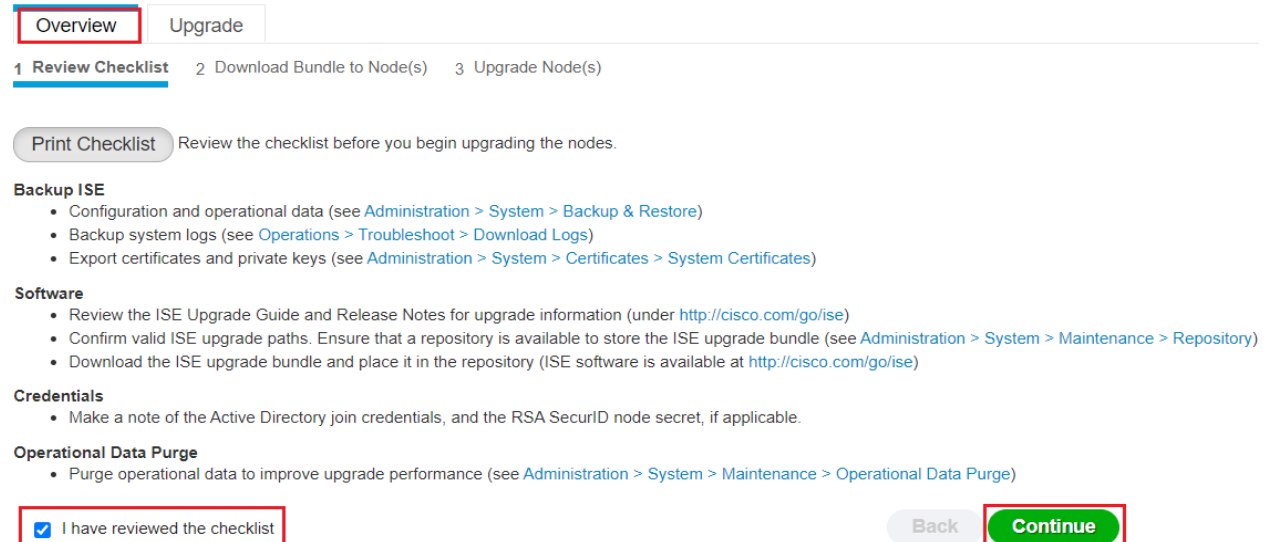

Read only mode. Click the Upgrade tab to proceed.

Node Group - Host Name	Persona	Version - Repository	Status
Fetching data from server....			
ise1.	Standalone	2.7.0.356	● Active

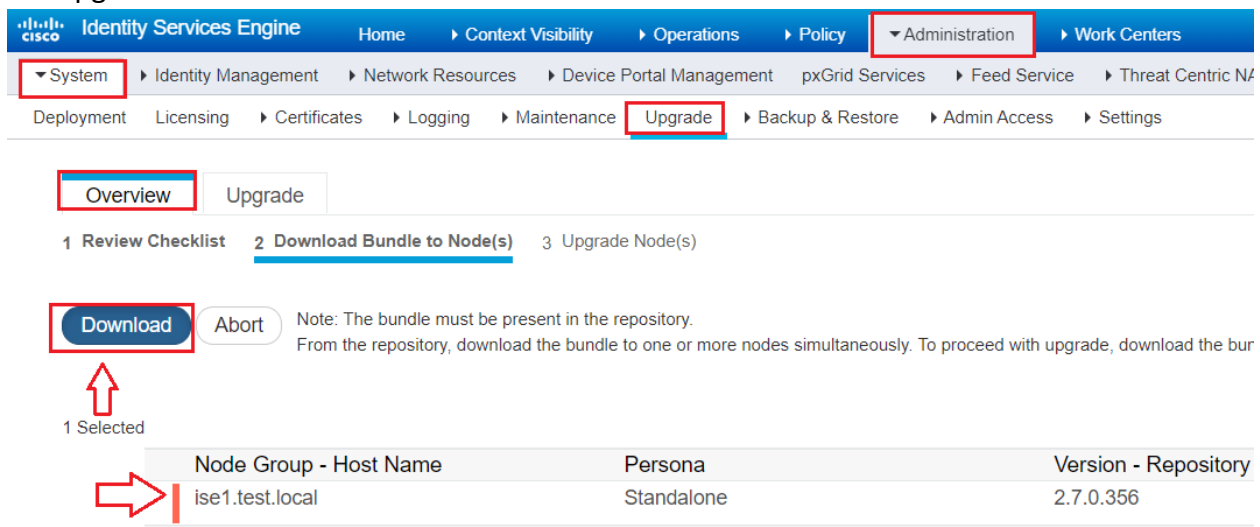

Click **Proceed**.

The **Review Checklist** window appears. Read the given instructions carefully. Check the **I have reviewed the checklist** check box, and click **Continue**.

The Download Bundle to Nodes window appears. Download the upgrade bundle from the repository to the nodes. Check the check box next to the nodes to which you want to download the upgrade bundle.
